The Heiniger Story

Since 1965, Heiniger's Swiss made clipping equipment has set the standard for quality, precision and reliability. Over the years Heiniger has continued to expand and innovate. As the world leader in animal clipping and shearing Heiniger recognised the growing trend in pet care and grooming, investing significant resources in the sector. Heiniger released its first professional small animal clipper, the Saphir, in 2008 which quickly developed a reputation for quality and has become the preferred choice by professional groomers around the world.

Heiniger's mission is to provide the industry with the Total Grooming Solution. Since 2008, their Grooming range has expanded to provide a wide range of quality products from professional grooming combs and brushes to the collection of ProGroom shampoos, conditioners, finishing sprays, colognes and the ProGroom Scissor range.

THE HEINIGER PROGROOM STORY

In **2009** ProGroom was co-founded by entrepreneur and groomer Natalie Ryan with the mission to bring the industry quality pet grooming products, formulated for professionals. Since then, ProGroom has become a renowned brand in the industry, trusted and used by Grooming professionals throughout Australia and New Zealand. **2017** saw ProGroom partner with Heiniger Australia as their exclusive distributor to meet the growing demand for their grooming products. ProGroom officially rebranded in **2023** as Heiniger ProGroom, contributing to a combined 40 years of experience in the industry and becoming a core part of Heiniger's total grooming solution.

Heiniger ProGroom products are formulated using naturally derived plant based surfactants in a shampoo base that is gentle, safe for pets and the hands that bathe them. Designed to address the needs of professional groomers, our extensive range makes any grooming task simpler. Our products enhance the look and feel of all coat types and do not contain soaps, SLS or SLES, parabens or harmful petrochemicals.

Concentrated shampoos work best when diluted for handbathing, and can be further diluted for hydrobaths resulting in less packaging and a reduced carbon footprint.

Environmentally friendly and biodegradable ingredients that are free from phosphates.

Long-lasting fragrances used in Heiniger ProGroom products have been carefully selected to keep pets smelling fresher for longer.

DILUTION IS THE SOLUTION

Did you know that many products from the Heiniger ProGroom range are concentrated?
This means they are designed to be diluted to achieve the best results.

The benefits of diluting:

- **Diluting** is the more economical way to use your products, providing you with better value for your money
- **Diluted** products are easier to apply
- **Diluting** ensures that products are gentle on the skin
- **Diluting** makes your products last longer, giving you more washes from every bottle while remaining just as effective

Check each product label for the correct dilution ratio.

FurEx

3-Step Deshedding System

Specifically formulated to assist in the removal of collected undercoat of double-coated breeds after the bath, eliminating the need to pre-groom heavy undercoated dogs before the bath.

Step 1 - Cleanse

A deeply penetrating yet gentle shampoo designed to cleanse and neutralize the ionic charge within the coat and remove all dirt, odour, and excess sebum. This prepares the coat for loose hair removal and begins the deshedding process.

500ml: FX-01-500 5L: FX-01-5L

Step 2 - Release

Contains protein ingredients which fill in damaged or rough areas of hair cuticle making a smooth surface that permits easy release of loose coat. Advanced conditioning ingredients provide slip and allow dead coat to slide out with little or no force.

500ml: FX-02-500 5L: FX-02-5L

Step 3 - Close

A mildly acidic conditioning spray that further seals the hair cuticle and promotes maximum release of tangled and collected hair within the coat. Spray application allows the groomer to adjust the amount of product applied to different areas of the coat as needed.
